NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2011

(unaudited)

1 ORGANIZATION AND NATURE OF OPERATIONS

Indigo Exploration Inc. (“the Company”) was incorporated on February 29, 2008 under the Business Corporations Act of British Columbia. The Company completed its Initial Public Offering on December 29, 2009. The Company commenced trading on the TSX Venture Exchange on December 31, 2009 and is currently listed under the symbol “IXI”.

The Company’s principal activities include the acquisition, exploration and development of mineral properties. The Company is currently conducting exploration and development activities in Burkina Faso, Africa. The recoverability of amounts shown as mineral properties is dependent upon the conversion of mineral resources to economically recoverable reserves, the Company’s ability to obtain financing to develop the properties, and the ultimate realization of profits through future production or sale of the properties.

On June 30, 2010, the Company acquired all of the issued and outstanding common shares of Sanu Burkina Faso S.A.R.L., a private company located in Burkina Faso, Africa (Note 3). The consolidated financial statements include the results of operations of Sanu Burkina Faso S.A.R.L. from June 30, 2010.

These unaudited financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30, 2011, the Company had not yet achieved profitable operations, had an accumulated deficit of \$1,617,380 since inception and expects to incur further losses in the development of its business. The Company’s ability to continue as a going concern is dependent upon the discovery of economically recoverable reserves, its ability to obtain the necessary financing to develop the properties and to meet its ongoing levels of corporate overhead and commitments, keep its property in good standing and discharge its liabilities as they come due. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company.

2 SIGNIFICANT ACCOUNTING POLICIES

These unaudited interim consolidated financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles (“GAAP”), following accounting policies consistent with the Company’s audited consolidated financial statements and notes thereto for the year ended September 30, 2010. These consolidated financial statements do not include all the disclosures required by GAAP for annual financial statements and should be read in conjunction with the most recent audited consolidated financial statements of the Company. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgement. Actual results may vary from these estimates.

Future Accounting Changes

International Financial Reporting Standards (“IFRS”)

In 2006, the Canadian Accounting Standards Board (“AcSB”) published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of October 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended September 30, 2011. The Company has begun an internal diagnostic review to understand, identify and assess the overall effort required to produce financial information under IFRS, however, at this time, the financial reporting impact of the transition to IFRS cannot be reasonably estimated.

3 ACQUISITION OF SANU BURKINA FASO S.A.R.L.

By an agreement dated May 27, 2010, effectively closed on June 30, 2010, the Company acquired (the “Acquisition”) 100% of the issued and outstanding shares of Sanu Burkina Faso S.A.R.L. (“Sanu Burkina”), a company organized under the laws of Burkina Faso, Africa, in consideration for cash payments of \$65,000 and the issuance of 3,000,000 common shares of the Company valued at \$450,000.

The transaction has been accounted for using the purchase method of accounting as an acquisition of assets by the Company. The allocation of the purchase price is based on the assets acquired and liabilities assumed measured at the carrying values, which approximated their fair values, at the date of the Acquisition. The allocation of the purchase price to the assets and acquired and liabilities assumed is as follows:

Cash	\$	20,921
Other assets		3,128
Equipment		15,981
Mineral properties		661,188
Accounts payable and accrued liabilities		(21,218)
Future income tax liability		(165,000)

Consideration paid:		
Cash	\$	65,000
Value of shares issued		450,000
		<hr/>
Total consideration paid	\$	515,000

Transactions undertaken by Sanu Burkina are included in the consolidated financial statements from June 30, 2010.

5 MINERAL PROPERTIES (Schedule 1)

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to its mineral properties and, to the best of its knowledge, title to its properties are in good standing.

Pursuant to the Mining Code of Burkina Faso, an exploration permit holder is required to incur 270,000 West African CFA Francs (\$576) of exploration expenditures per square kilometre per year in order to maintain its permits in good standing. If such expenditures are not incurred, the Government of Burkina Faso may, at its discretion, cancel the permits after giving the permit holder sixty days notice to remedy any deficiency. At June 30, 2011, the Company has not incurred sufficient exploration expenditures on its Burkina Faso permits to comply with the Mining Code of Burkina Faso. However, the Government of Burkina Faso has renewed the permits and has not issued the Company any notice of non-compliance. As such, the Company believes its Burkina Faso permits are in good standing.

Kodyel Exploration Permit and Other Permits

Pursuant to the Acquisition (Note 3), the Company acquired gold mineral properties located in Burkina Faso, Africa. The permits acquired were the Kodyel Exploration Permit, the Tordo Exploration Permit, the Lati Exploration Permit and the Loto Exploration Permit. The Company has no significant commitments with respect to these permits other than compliance with the Mining Code of Burkina Faso.

Moule Gold Permit, Burkina Faso

On May 5, 2010, the Company entered into an option agreement to acquire a 100% interest, subject to a 1.5% net smelter return (“NSR”) royalty, in the Moule Gold Permit, in western Burkina Faso, in consideration for cash payments totalling US\$410,000 over a three year period as follows:

- A. US\$50,000 on May 5, 2010 (paid);
- B. US\$60,000 on or before May 5, 2011 (paid);
- C. US\$100,000 on or before May 5, 2012;
- D. US\$200,000 on or before May 5, 2013.

The Company has the right to purchase the entire 1.5% NSR royalty for US\$1,800,000.

6 SHARE CAPITAL

- a) Authorized:

Unlimited common shares without par value.

- b) Financings:

During the nine months ended June 30, 2011, the Company completed the following financing:

- (i) On January 24, 2011, the Company closed a non-brokered private placement of 7,663,666 units at \$0.30 per unit for gross proceeds of \$2,299,100. Each unit is comprised of one common share and one-half of one common share purchase warrant. Each whole warrant entitles the holder thereof the right to purchase one common share of the Company at \$0.50 per share, exercisable up to July 24, 2012. A value of \$3,832 has been attributed to the warrants.

In connection with the private placement, the Company incurred cash issue costs of \$79,096, issued 232,057 finders' units at the fair value of \$69,617, and issued finders' warrants entitling the holder thereof the right to purchase up to 375,015 common shares of the Company at \$0.35 per share, exercisable up to July 24, 2012. A value of \$105,129 has been attributed to these finders' warrants using the Black-Scholes option pricing model and has been credited to contributed surplus in shareholders' equity. The assumptions used in the option pricing model are as follows: risk-free interest rate – 1.43%; expected life – 1.5 years; expected volatility – 100% and expected dividends – nil.

6 SHARE CAPITAL – (cont'd)

c) Commitments:

Stock option plan

The Company has a stock option plan (the “Plan”) whereby the maximum number of shares reserved for issue under the plan shall not exceed 10% of the outstanding common shares of the Company, as at the date of the grant. The maximum number of common shares reserved for issue to any one person under the Plan cannot exceed 5% of the issued and outstanding number of common shares at the date of the grant and the maximum number of common shares reserved for issue to a consultant or a person engaged in investor relations activities cannot exceed 2% of the issued and outstanding number of common shares at the date of the grant. The exercise price of each option granted under the plan may not be less than the Discounted Market Price (as that term is defined in the policies of the TSXV).

Options may be granted for a maximum term of ten (10) years from the date of the grant, are non-transferable and expire within 90 days of termination of employment or holding office as director or officer of the Company and, in the case of death, expire within one year thereafter. Upon death, the options may be exercised by legal representation or designated beneficiaries of the holder of the option.

A summary of the status of the Company’s stock option plan as of June 30, 2011 and the changes during the nine months then ended is presented below:

8 FINANCIAL INSTRUMENTS

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, other receivables, and accounts payable and accrued liabilities. The Company designated its cash and cash equivalents as held-for-trading which are measured at fair value. Other receivables are designated as loans and receivables, which are measured at fair value. Accounts payable and accrued liabilities are designated as other financial liabilities, which are measured at amortized cost.

The Company classifies the fair value of these transactions according to the following fair value hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 – Values based on unadjusted quoted prices available in active markets for identical assets or liabilities as of the reporting date.
- Level 2 – Level 2 valuation is based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace. Prices in Level 2 are either directly or indirectly observable as of the reporting date.
- Level 3 – Values based on prices or valuation techniques that are not based on observable market data.

8 FINANCIAL INSTRUMENTS – (cont'd)

The value of cash and cash equivalents and other receivables have been assessed based on the fair value hierarchy described above and are classified as Level 1. Assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy.

Discussions of risks associated with financial assets and liabilities are detailed below:

Foreign Exchange Risk

A portion of the Company's financial assets and liabilities is denominated in West African CFA francs ("CFA") giving rise to risks from changes in the foreign exchange rate. The Company is exposed to currency exchange rate risk to the extent of its activities in the Burkina Faso. The Company's currency risk is presently limited to approximately \$75,064 of net balance sheet exposure denominated in CFAs. Based on this exposure as at June 30, 2011, a 5% change in the exchange rate would give rise to a change in net loss of \$3,753. The Company does not use derivative financial instruments to reduce its foreign exchange exposure.

The currencies of the Company's financial instruments were as follows:

	June 30, 2011	
	Canadian dollar	CFA
Cash and cash equivalents	\$ 2,047,344	\$ 103,069
Accounts payable and accrued liabilities	(31,153)	(28,005)
Net balance sheet exposure	<u>\$ 2,016,191</u>	<u>\$ 75,064</u>

Future changes in exchange rates could have a material effect on the Company's business, financial condition and results of operations.

Credit Risk

Credit risk arises from cash held with banks and financial institutions. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The majority of the Company's cash is held through a major Canadian chartered bank and accordingly, the Company's exposure to credit risk is considered to be limited.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Although interest income on the Company's cash and cash equivalents is subject to a variable interest rate, the risk exposure is not significant due to the small amount of interest income these balances.

Liquidity Risk

The Company manages liquidity risk by maintaining sufficient cash to enable settlement of transactions as they come due. Management monitors the Company's contractual obligations and other expenses to ensure adequate liquidity is maintained. Accounts payable and accrued liabilities are all current.
